Farm to school connects Oregon farmers, ranchers, seafood harvesters, and food processors with school cafeterias, early childcare centers, and summer meal sites. Oregon kids eat more Oregon foods. They get to learn how food is produced, through school gardens, field trips to farms, ranches and fishing communities, and grower visits to the classroom. In Oregon countless businesses, non-profits, commodity commissions, and individuals are creating opportunities to get more Oregon foods on the lunch line and more kids engaged in
