

COLLEGE OF HEALTH

Health + Well-Being For All

OSU Goals

A university focused on **BIG DISCOVERIES** that drive **BIG SOLUTIONS**

A university where **EVERY STUDENT GRADUATES**

A university that **FUELS A THRIVING WORLD**

College of Health Goals

Advance research and generate innovative discoveries to improve health + well-being for all.

Ensure that every student learns, thrives and graduates.

Create collaborations with communities, governments, education and industry to improve the health + well-being of their members and constituents.

Actions

Build and cultivate research excellence.

Increase student enrollment in undergraduate and graduate courses and programs.

Increase retention and graduation of all students.

Build and strengthen external partnerships to increase research translation and educational opportunities.

Tactics

- 1• Prioritize and establish excellence in:
 - Environmental impacts on human health
 - Health promotion and disease prevention
 - Health + well-being of children and youth
- 2• Expand transdisciplinary research collaborations to gain access to large and diverse funding streams and solve complex health problems.
- 3• Implement initiatives to increase research funding, productivity and visibility of faculty and students.
- 4• Expand and support opportunities for community-engaged research and translate scientific knowledge to human-centered applications.
- 5• Increase and optimize resources to enhance research services, space and equipment.

- 1• Implement new and revise existing programs and courses to meet the needs of students and the workforce.
- 2• Optimize delivery of courses and programs to meet the needs of diverse students and remove barriers to enrollment and completion.
- 3• Build and strengthen partnerships with community colleges and high schools to attract new students.
- 4• Increase financial support for students through scholarships, training grants and research assistantships to recruit and attract new and talented students.
- 5• Increase diversity of students and faculty to reflect the diversity of our state and nation.

- 1• Develop, implement and evaluate advising models and strategies for all students.
- 2• Create initiatives to support the success, well-being and belonging of students, in collaboration with university partners and resources.
- 3• Support quality teaching and recognize excellence in teaching and mentoring.
- 4• Increase opportunities and reduce barriers for co-curricular activities, internships, research and study abroad.
- 5• Increase scholarships for students with limited resources.

- 1• Grow partnerships with communities and sectors to apply scientific discoveries that address the needs of their members and constituents.
- 2• Expand educational opportunities for community and sector through online and hybrid learning and non-credit opportunities.
- 3• Work with partners to increase experiential learning opportunities and career mentoring that meet the needs of partners and students.
