

SNAP-Ed Surveys Decision Tree

Are you doing direct education/program activities?

If **yes**, we should be collecting information to evaluate those activities as often as possible

Are you using an evidence-based curriculum with youth (Grades 3+) or adults?

If **yes**, does the curriculum have its own survey tool?

If **yes**, please ensure the State team receives the data from those tools

If **no**, please use the pre-/post-test surveys available on NEP website

If **no**, consider if the Food Hero evaluation tools might be appropriate for your class

SNAP-Ed Surveys

Where are the gaps?

What kinds of direct education programming isn't covered under existing evaluation tools?

What challenges do you face trying to collect this information?

SNAP-Ed Surveys Using Results

How do you currently use the information?

How else would you want to use the information?
