When we bring local foods into school cafeterias and teach kids about where their food comes from, good things happen. Farm to school and school garden activities work together to improve kids' health and wellness, support their success in school and grow Oregon's economy. Now that's prosperity widely shared!

Stories from the field

Did you know that both the Oregon Departments of Education and Agriculture have grant programs for school nutrition services, educators and producers? Our friends at KATU Channel 2 and KUNP Univision are helping bring grantee stories to life.

Grant types

1. Procurement
2. Education
3. Equipment & Infrastructure
4. Technical Assistance
5. Evaluation

Looking for 11 more grantee stories between now and June 2025.

Are you interested in potentially have a story of your site or exploring this opportunity further?

Technically all schools you partner are grantees - because they buy local foods and get reimbursed.

This potential opportunity is available to all faculty and staff, not just if you are participating in the current round of Technical Assistance Farm to School projects.

Difference between Farm to School and other teams you may participate on.
